Owing to the limited space I will have to plant, this year, I am compelled to reduce the number of varieties that I will have space for. To move them quickly I am putting a very low price on them. If there is anything you want in this list, order at once as they won't last long at these prices. Orders accepted subject to stock being sold when received. If stock is sold money will be returned.

AMBER GLOW. A Cactus of the highest English type, petals are long, narrow and straight. Size immense. Stem is as good as its parent, Pierrot. The color is bright yellow, deepening to pale orange at the center. An incomparable exhibit blossom which is also good for cutting.

APEX. A large, round, heavy flower; the color is yellow at the base of the petals, shading out to autumn buff at the tips; one of the best.

BAZAAR. This is a new California variety of much merit; color a beautiful autumn tint, soft chrome yellow, overlaid with red.

BONNIE BRAE. Cream, shaded blush pink; the flowers are of true decorative form and immense in size, but not suitable for cutting, as the enormous flowers are apt to be too heavy for the stem.

DR. TEVIS. A beautiful shade of soft salmon rose, suffused with old gold shading to a golden apricot center. One of the largest grown; the immense flowers being held erect on fine, long, vigorous stems.

The outer petals of the mammoth blooms are gorgeous shades of copper, gold and amber, and the centers, full and perfect, deepen in tone to a rich reddish bronze. The blossoms are held absolutely erect on extra stout stems, well above a plant that is strong and vigorous.
- JUNIOR.** An enormous flower of pure lavender. This huge blossom is a seedling of The Millionaire, but has greater width, if not as full. A useful Dahlia in competition in the "Largest Dahlia" Class.
- J. W. DAVIES.** A wonderful 1921 introduction, a blossom which was entered last fall in all the winning collections of decoratives, a huge, massive flower with a splendid strong stem. The coloring is unusual, deep cerise at the base, shading lighter towards the tips of the petals.
- KITTIE DUNLAP.** It is not only a beauty, but has every characteristic which endears it to a dahlia grower. Blooms freely all season, has excellent keeping qualities; long, firm stems, immense size, and great substance. If this dahlia did not have all these admirable qualities, the coloring would make it popular, as it is of the delightful shade of the American Beauty Rose.
- LAURINE (H. C.)** Deep pink, a shade darker than Dorothy Durnbaugh; the flowers are twice as large as that variety, and are held erect on splendid, long stems; a strong grower and profuse bloomer.
- LOTUS.** An especially good cut flower as it has size and stem and a popular and unusual color. The color is a luminous flame, or a lovely orange. The formation is like a pond lily.
